- ii) Double klik Icon  Windows Security dibahagian icon komputer anda.

2. Akan keluar paparan Windows Security

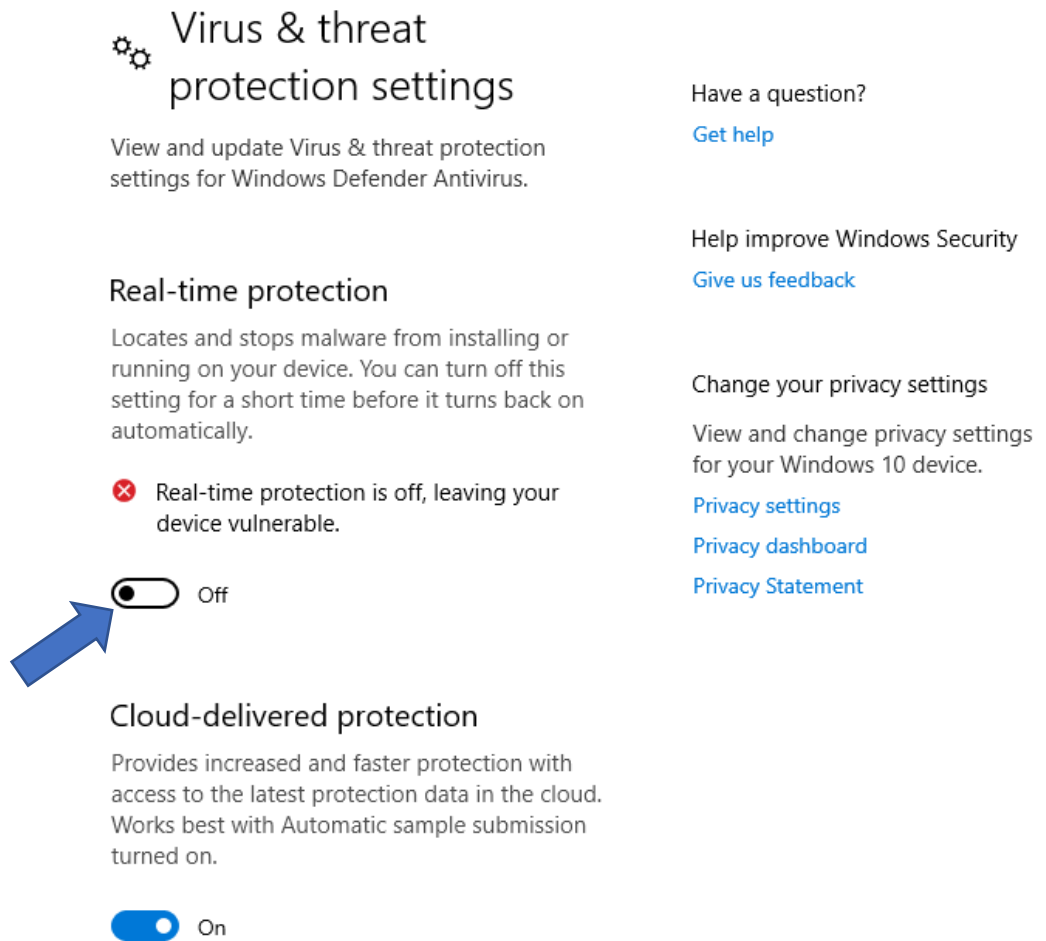

3. Pilih bahagian Virus & treat protection

4. Pilih Virus & treat protection settings dan Manage Settings

5. Pilih untuk Off kan Real Time Protection

Virus & threat protection settings

View and update Virus & threat protection settings for Windows Defender Antivirus.

Real-time protection

Locates and stops malware from installing or running on your device. You can turn off this setting for a short time before it turns back on automatically.

⊗ Real-time protection is off, leaving your device vulnerable.

Off

Cloud-delivered protection

Provides increased and faster protection with access to the latest protection data in the cloud. Works best with Automatic sample submission turned on.
