Every UiTM's lecturer needs to fill in every published research data in PRISMa system (Publication Repository Information System). Please refer to manual of filling in information on the PRISMa system.

Those who have not registered, please register by using the manual as guidance. Those who have registered, please update your latest publication in your profile.

This is to ensure that UiTM Kedah will succeed in meeting its Ninth Quality Objective: each lecturer will produce 1 publication annually. All publication data will be kept in 1 entry. Thus, for publication with more than one researcher, it is advisable for one researcher to fill in the data and add the rest of researchers. It will ensure each publication is recorded under 1 entry only.

Once the information is filled in, you are asked to submit a copy of your publication (e.g. a cover page and table of contents of a journal) in a hardcopy. Forward this item to Pn. Norehan Ramli (PJI) or Pn. Aishah Musa (A2 3022) for validation.

This copy needs to be submitted within a month prior to the day of information submission in the PRISMa system. Failure to meet the requirement will void the submission status. For further enquiries, Prof, Prof Madya, Dr, Tuan, Puan could contact this number ext. 2527.
